# Introduction

Websites.co.in lets you create websites, online stores, and blogs in just 15 minutes. Trusted by 5 million+ users, it offers free domains, hosting, and Google-friendly tools, making it easy to build your online presence.

# 1

## SIGN UP

Visit <https://websites.co.in/> and click 'Free Signup'.

The screenshot shows the homepage of Websites.co.in. The navigation menu includes Home, Features, How it Works, Mobile App, Services, Pricing, Contact, Free Signup, and Login. The main heading reads "Create Your Website, Blog, Or E-Commerce Site In 5 Minutes". Below this, three key features are listed: "3 million users in 190+ countries", "Create your website in 98 languages", and "4.5 star ratings on Google Playstore". Two buttons are present: "Get Started For Free" and "Download Mobile App". A note states "No credit card required." To the right, a graphic shows a website displayed on a desktop, tablet, and smartphone, with a handwritten note "Zero technical knowledge needed" and an arrow pointing to the graphic.

## BUSINESS PROFILE

Instructions for Setting Up Your Business Profile:

1-Access Business Profile: Use the left menu.

2-Upload Logo: Click 'Choose File' to upload.

3-Business name: Enter your business name

4-Business Description: Detail products, services, and market position.

5-Select Category: Choose from the options.

6-Indian users may enter GST number during registration; optional for other users.

7-Additional Info: employee count, legal status, and turnover.

8-Select Keywords: Use relevant keywords for optimization.

The screenshot shows a web application interface for setting up a business profile. On the left is a dark sidebar menu with options: Search, Dashboard, Buy Subscription, Business Profile (highlighted), Business Card, Social, Updates/Posts, Store, Media, Pages, Pop Ups, Templates, Customize Menu, Customization, and Extra Section. The main content area is divided into several sections: 1. Logo upload: A large image placeholder for the business logo with the text 'SOMPANY SOLUTIONS' and 'GOMTECH SOLUTIONS' below it. Below the image are 'Upload', 'Crop', and 'Delete' buttons. 2. Business Name: A text input field containing 'GreenTech Solutions'. 3. Business Description: A rich text editor with a toolbar (bold, underline, list) and a text area containing a paragraph about 'GreenTech Solutions'. 4. Business Category: A dropdown menu showing 'SCIENCE, TECHNOLOGY & ENGINEERING'. 5. GST No: A text input field containing '29AABC123'. 6. Year of Establishment: A text input field containing '2001'. 7. Total Number of Employees: A text input field containing '70'. 8. Legal Status: A dropdown menu showing 'Pvt Ltd (Private Limited Company)'. 9. Annual Turnover: A text input field containing '10 crore'. 10. Keywords: A row of five keyword tags: 'solar energy', 'green technology', 'renewable energy', 'energy-efficient solutions', and 'eco-friendly technology'. Purple arrows point from the numbered instructions to these specific elements in the interface.

## BUSINESS PROFILE

Advanced SEO setting for landing page of your website

### Search Preview

Shows how your page will look on Business profile. Ensure clarity and keyword optimization.

#### 9. Enter Meta Title

The main title that appears in search results. It should be under 60 characters, include Meta keywords, and be clear.

#### 10. Enter Meta Description

A short summary below the title in search results. It should be engaging and include keyword used above for better optimization

#### 11. Save Information

Ensure all entries are saved

The screenshot displays the 'Advanced SEO Settings' interface. At the top, it says 'Advanced SEO Settings' with an information icon and 'Enter SEO details for home page.' Below this are two input fields: 'Meta Title' (0/190) with the placeholder 'Enter engaging title for search results.' and 'Meta Description' (0/255) with the placeholder 'Write a compelling description that will make users want to click.' To the right of the form is a 'Search Result Preview' window. This preview shows a browser window with 'www.google.com' in the address bar. The search bar contains 'site:yourdomain.com'. Below the search bar, a search result is shown for the URL 'https://socialbrandingwithkhushboo.websites.co.in' with a title 'This is an Example of a Title Tag' and a snippet: 'Here is an example of what a snippet looks like in Google Search.' At the bottom of the form is a blue button labeled 'Save Business Information'. A 'Support' button is located in the bottom right corner of the interface.

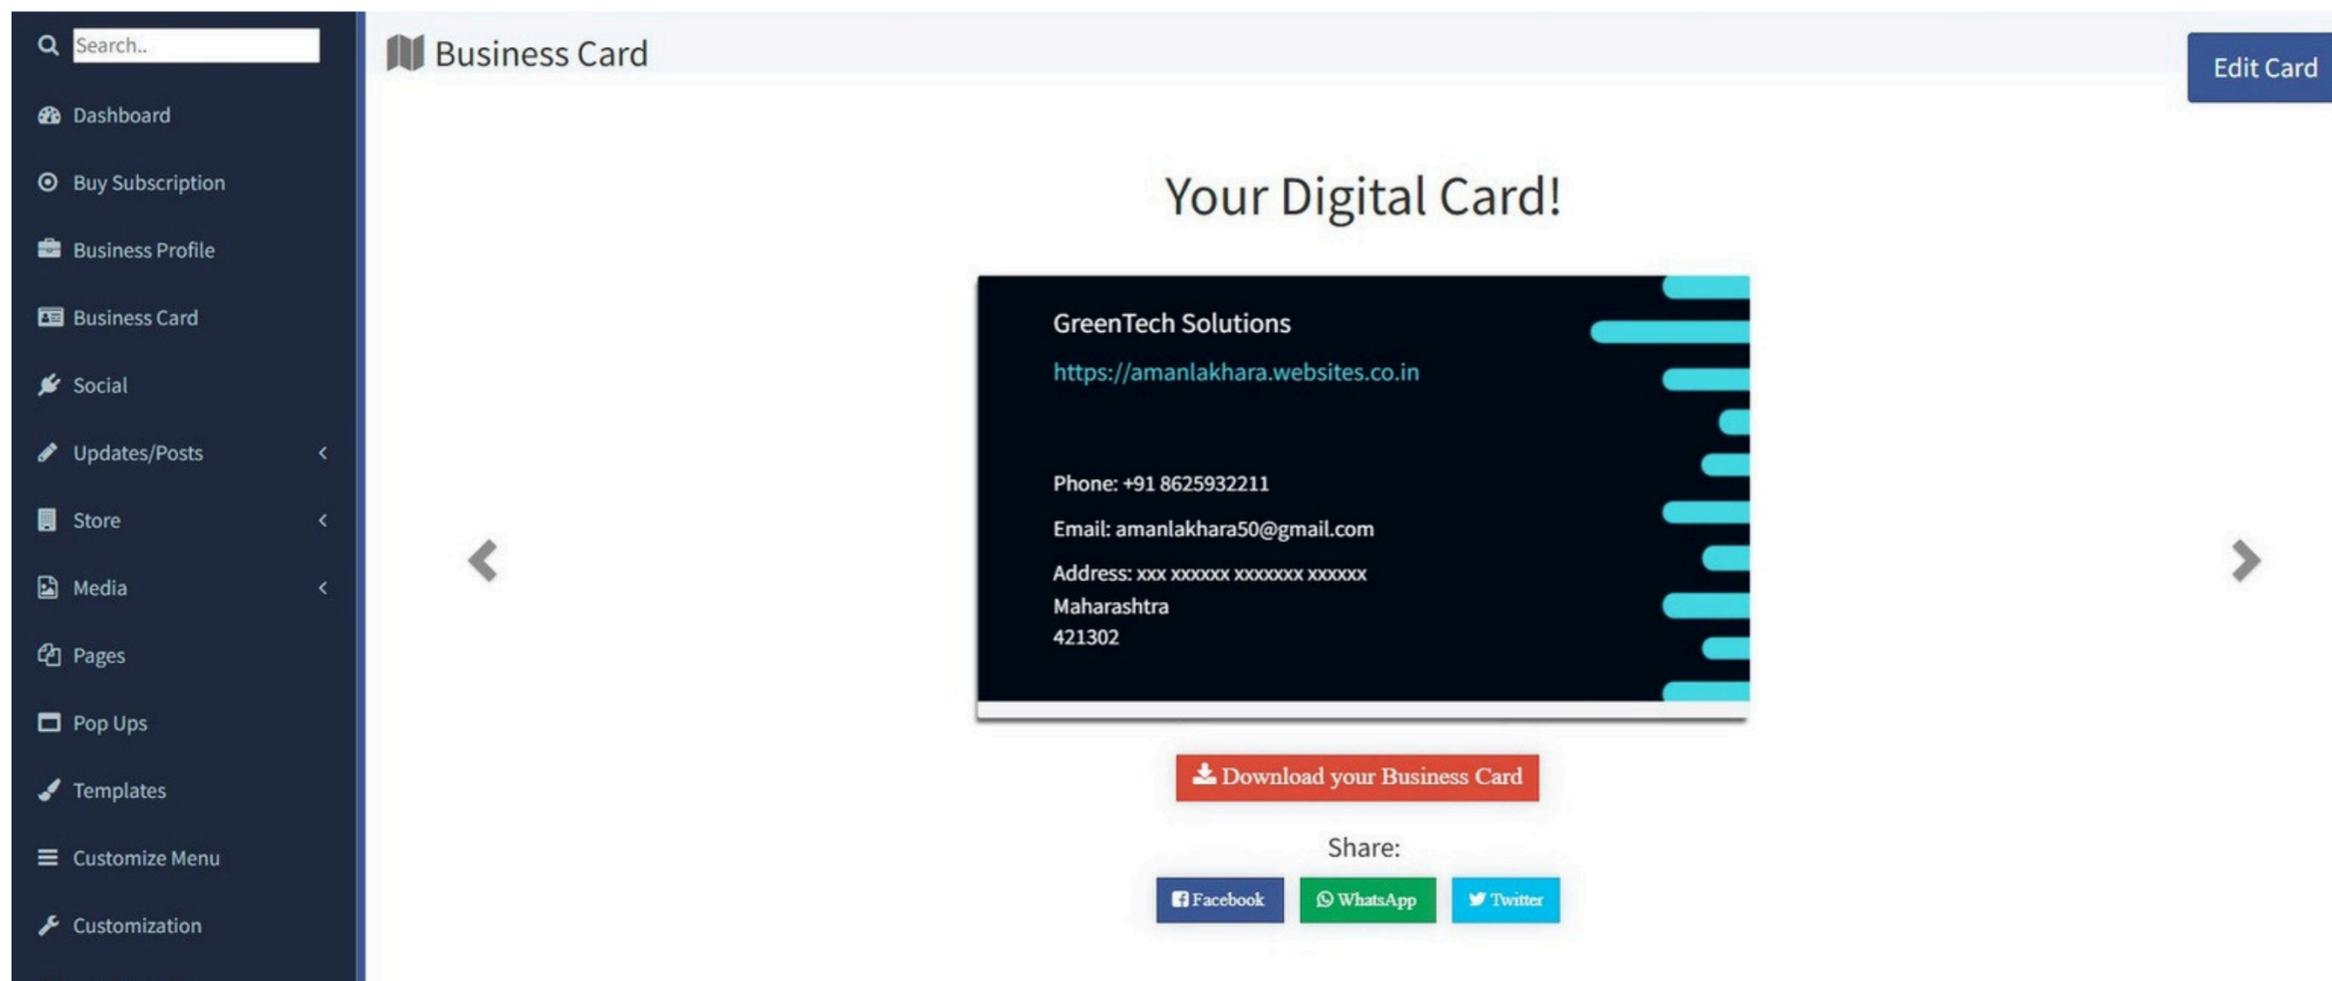

# 4

## BUSINESS CARD

LOCATE 'BUSINESS CARD' IN THE LEFT MENU.

A BUSINESS CARD SHARES KEY CONTACT DETAILS AND AIDS IN PROFESSIONAL NETWORKING.

EDIT VIA 'EDIT CARD' IN THE TOP-RIGHT.

# AI Tokens

\*\*AI TOKENS is exclusively available to paid customers.\*\*

Here, you can see your available tokens.

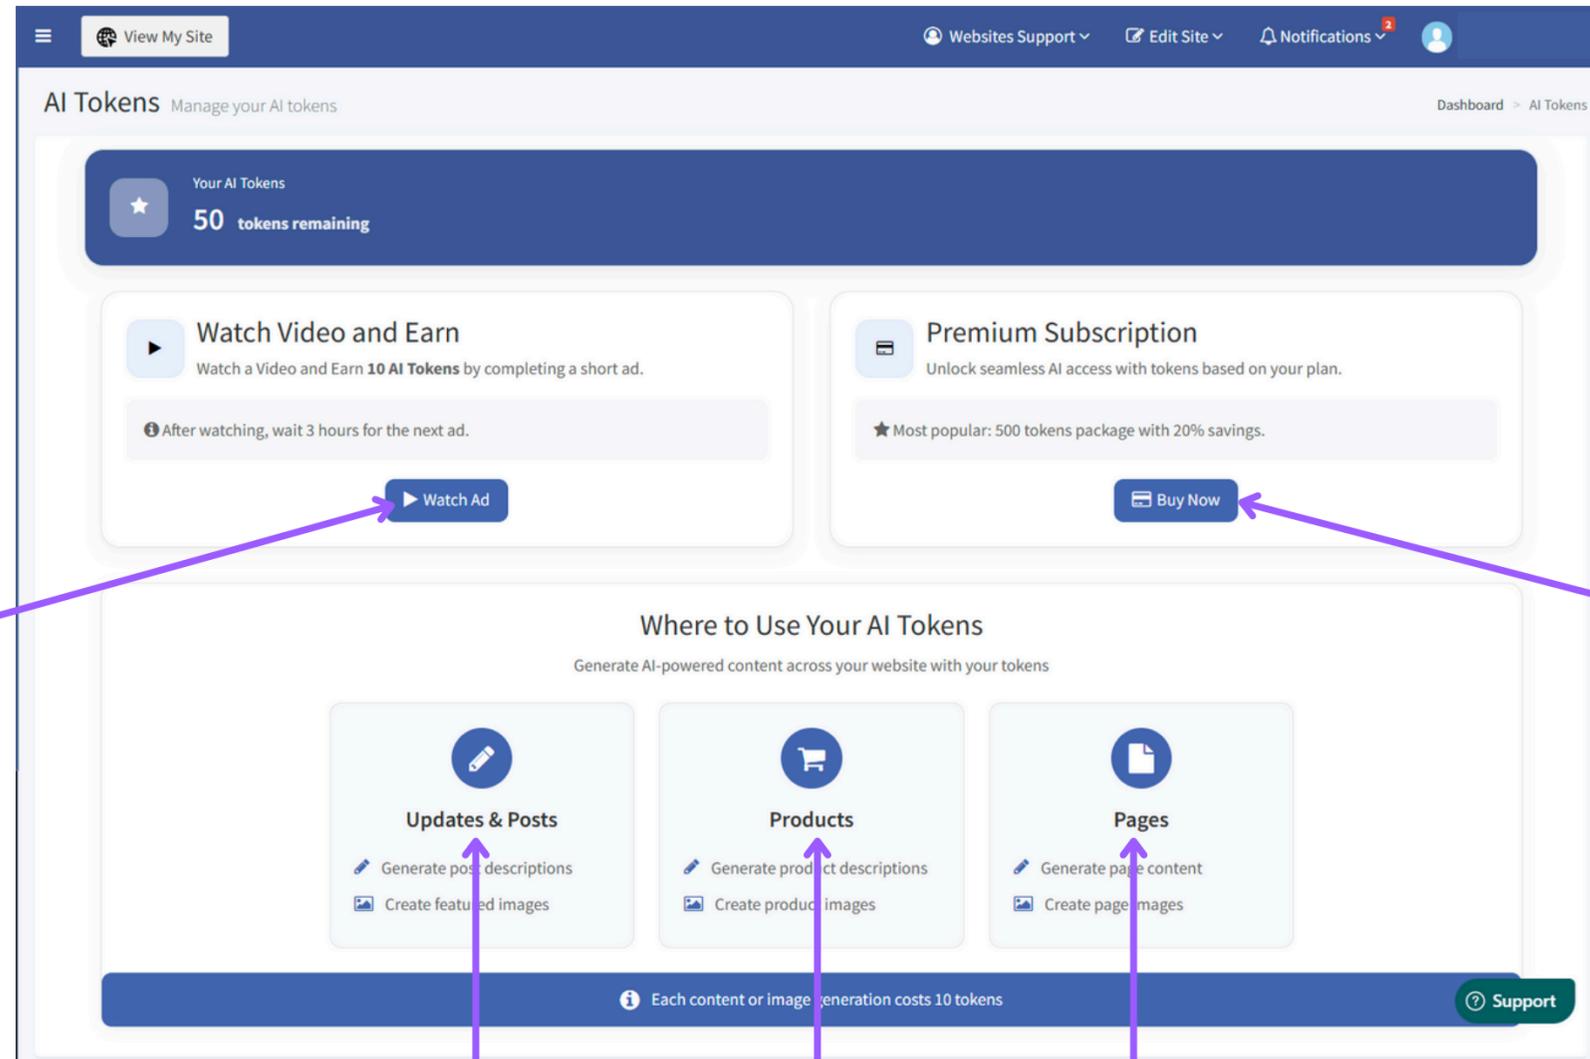

Go to "AI Tokens" from the left-hand menu.

The screenshot shows the 'AI Tokens' dashboard. At the top, there's a header with the logo 'websites.co.in', a 'View My Site' button, and user information for 'Khushboo Dattani'. The left-hand menu is visible, with 'AI Tokens' highlighted in green and marked as 'New'. The main content area is titled 'AI Tokens Manage your AI tokens'. It features a blue banner showing 'Your AI Tokens' with a star icon and '50 tokens remaining'. Below this, there are two cards: 'Watch Video and Earn' which offers 10 AI Tokens for watching a short ad, and 'Premium Subscription' which offers seamless AI access. A section titled 'Where to Use Your AI Tokens' lists three categories: 'Updates & Posts' (Generate post descriptions, Create featured images), 'Products' (Generate product descriptions, Create product images), and 'Pages' (Generate page content, Create page images). A footer note states 'Each content or image generation costs 10 tokens' and there is a 'Support' button.

Go to Media > Photos/Videos/Files, click 'Upload,' and select your file.

The screenshot displays a dashboard interface for managing media. On the left is a dark sidebar with a search bar and a list of menu items: Dashboard, Buy Subscription, Business Profile, Business Card, Social, Updates/Posts, Store, Media (highlighted with a '1'), Carousel/Slider, Photos (highlighted with a '2'), Videos, Files, Pages, Pop Ups, Templates, Customize Menu, Customization, and Extra Section. The main content area is titled 'Carousel/Slider' and includes a breadcrumb 'Dashboard > Carousels'. An orange information banner at the top states: 'Compress images before upload for slider section. Ensure each images is not above 400KB. Try to restrict the images width to 1280px and height to 720px. Use the following tool to reduce the image size [Compress Image](#) [Resize Image](#)'. Below this is a 'Default Backgrounds' section with a '+' icon. A large dashed box contains the text 'Drop your files here or Click to browse'. Below the dashed box, a red note reads 'Only jpg, jpeg, png and less than 400KB size are supported'. A blue 'Upload Images' button with an upward arrow icon is positioned below the dashed box, with a purple circle containing the number '3' and an arrow pointing to it. At the bottom of the page, there is a copyright notice 'copyright © 2024 Websites.co.in . All rights reserved. Version 3.2.0' and a language selection dropdown menu with flags for various countries and the text 'Powered by Google Translate'.

## CREATE NEW PAGE

All pages created beyond the default template are listed in the Custom Pages section.

### 1. CREATE NEW PAGE

A. Click on “Pages”

B. "Click 'Create New Page,' then enter your page title, image, and description."

The screenshot displays a dashboard interface. On the left is a dark sidebar with a search bar and a list of navigation items: Dashboard, Buy Subscription, Business Profile, Business Card, Social, Updates/Posts, Store, Media, Pages (highlighted with a purple arrow), Pop Ups, Templates, Customize Menu, Customization, Extra Section, Integrations, Analytics, Subscribers, and Enquiries. The main content area is titled 'Pages' and includes a '+ Create Page' button (pointed to by a purple arrow from the text above). Below the button is a table with headers: #, Title, Status, Created On, and Actions. A notification box in the center of the table area contains the text 'Watch The Video Tutorial On - How to add custom page to your website?' and a 'Play Now!' button. The top right corner of the dashboard shows 'Dashboard > Pages' and a 'Support' button in the bottom right corner.

# 10

## CREATE NEW PAGE

### Advanced SEO setting for Page

1. Navigate to the "Pages" section in the left-hand menu.
2. Click on "Create Page" or "Edit" as needed.

### Search Preview

Shows how your page will look on Search Engine. Ensure clarity and keyword optimization.

### Enter Meta Title

The main title that appears in search results. It should be under 60 characters, include Meta keywords, and be clear.

### Enter Meta Description

A short summary below the title in search results. It should be engaging and include keyword used above for better optimization

### Enter Url Slug

A URL slug is the part of a URL that identifies a specific page after the domain name. This helps improve both readability and search rankings.

The screenshot displays the 'Advanced SEO Settings' form with three main input fields: 'Meta Title' (0/190), 'Meta Description' (0/255), and 'URL Slug' (0/50). The 'Meta Title' field contains the placeholder text 'Enter engaging title for search results.'. The 'Meta Description' field contains the placeholder text 'Write a compelling description that will make users want to click.'. The 'URL Slug' field contains the placeholder text 'page-url-slug' and a preview of the full URL: 'https://socialbrandingwithkhushboo.websites.co.in/pages/page-url-slug/{id}'. To the right of the form is a 'Search Result Preview' window showing a Google search result for 'site:yourdomain.com'. The preview includes the Google logo, a search bar with the query 'site:yourdomain.com', and a search result snippet with the title 'This is an Example of a Title Tag' and the text 'Here is an example of what a snippet looks like in Google Search.'.

## CREATE NEW PAGE

The added page will show on your website in this format.

### ABOUT US

At Green Infotech, we are committed to shaping a sustainable future through innovative solar energy solutions. As a leading solar panel manufacturer, we specialize in designing, developing, and delivering high-performance solar panels built to last and perform in the most demanding environments.

Founded with a vision to make clean energy accessible to everyone, our journey began with a simple mission — to harness the power of the sun to create a greener planet. Over the years, we have grown into a trusted name in the solar industry, known for our cutting-edge technology, uncompromising quality, and customer-first approach.

#### What We Do

**Manufacturing Excellence:** Our state-of-the-art production facility is equipped with advanced technology to ensure maximum efficiency and durability in every panel we produce.

**Research & Development:** We continuously innovate to improve panel performance, lifespan, and affordability.

**Sustainable Impact:** From residential rooftops to large-scale industrial installations, our solar panels help reduce electricity costs and carbon emissions.

#### Our Commitment

We are more than just a manufacturer — we are your partner in sustainability. Every Green Infotech product is backed by strict quality standards, dedicated customer support, and a long-term performance warranty. With a passionate team and a purpose-driven mindset, we are empowering homes, businesses, and communities to make the switch to clean, renewable energy.

## POP UP

To add a popup to your website.

1. Click 'Popup' in the left menu
2. enter your details

The screenshot shows the 'Create Popup' interface in the websites.co.in dashboard. The left sidebar menu has 'Pop Ups' highlighted with a purple arrow. The main content area features a rich text editor with a yellow background and the text 'Huge Seasonal Sale: Up to 50% Off!'. Below the editor, there are several form fields: a checked 'Show Button' checkbox, 'Button Name' and 'Button Link' input fields, a 'Delay (In Seconds)' field with the value '1', and a checked 'Active' checkbox. At the bottom right, a blue 'Publish' button is highlighted with a purple arrow, with the text '3. click on 'Publish'.' next to it. The dashboard header includes the logo, navigation links, and user information.

11

## POP UP

Your popup will be displayed on your website in the following manner.

# Advanced SEO For Power Users

\*\*Advanced SEO for Power is exclusively available to paid customers.\*\*

1. Click on Advanced SEO Optimization in left menu bar

The screenshot shows a dashboard interface. On the left, a dark sidebar menu contains various options: Social, Updates/Posts, Store, Media, Pages, Pop Ups, **Advanced SEO Optimization** (highlighted), Home Page, Update/Post, Product/Service, Media, Templates, Customize Menu, Customization, Extra Section, Integrations, Analytics, Subscribers, and Enquiries. A purple arrow points from the text '1. Click on Advanced SEO Optimization in left menu bar' to the 'Advanced SEO Optimization' menu item. Another purple arrow points from the text 'Here, you can select the pages you want to optimize or improve for SEO.' to the sub-menu items under 'Advanced SEO Optimization': Home Page, Update/Post, Product/Service, and Media.

The main dashboard area includes a 'Dashboard overview of your website' header, a user greeting 'Hi Khushboo Dattani', a subscription status message, a 'Refer and Earn' banner, and a central section for 'Social Branding with Khushboo' with a logo, website URL, and contact details. A 'Stats at Glance' section shows 3 updates and 1 product. A 'What we offer to our Premium users' section lists various services like E-commerce, Facebook Pixel, Live Chat, Google Analytics, Google Tag Manager, WhatsApp Chat, Google Translate, and Google Maps.

Here, you can select the pages you want to optimize or improve for SEO.

## TEMPLATE

Click 'Template

Select your preferred template, and click 'Apply.

The image shows a website builder interface. On the left is a dark sidebar menu with the following items: Dashboard, Buy Subscription, Business Profile, Business Card, Social, Updates/Posts, Store, Media, Pages, Pop Ups, Templates, Customize Menu, Customization, Extra Section, Integrations, Analytics, and Subscribers. The main area displays a grid of template preview cards. The top row includes 'Blogstar', 'Shopmart', and 'Academia'. The bottom row includes 'Hotel', 'Real Estate', and 'Udyog'. Each card shows a preview of the website design and has 'Preview' and 'Apply' buttons at the bottom. A purple arrow points to the 'Preview' button of the 'Academia' template.

You can preview the template before applying it.

## CUSTOMIZE MENU

First click on Customize menu.

Drag and drop labels from the left into the 'Customizations' area to add new menus.

To delete, drag menus from 'Customizations' to the 'Bin'.

The screenshot displays the 'Customize Menu' interface. On the left is a dark sidebar menu with a search bar and various options: Dashboard, Buy Subscription, Business Profile, Business Card, Social, Updates/Posts, Store, Media, Pages, Pop Ups, Templates, Customize Menu (highlighted), Customization, Extra Section, Integrations, Analytics, and Subscribers. The main content area is divided into three sections: 'Defaults' (containing Updates, Products, and Media), 'Customizations' (containing Home, Home, Updates, Products, Media, Contact, - More Pages, Home, About Us, Services, Contact Us, and Contact), and 'Bin' (an empty dashed box). The 'Customizations' section has a toolbar with 'Save', 'Labels', and 'Reset' buttons.

## CUSTOMIZE MENU

- You can also change menu labels by clicking on them and editing their names. Apply changes to your website when done.
- "After making all changes, click the 'Save' button."

The screenshot shows a 'Change Labels' dialog box overlaid on a dashboard. The dialog box contains the following text and elements:

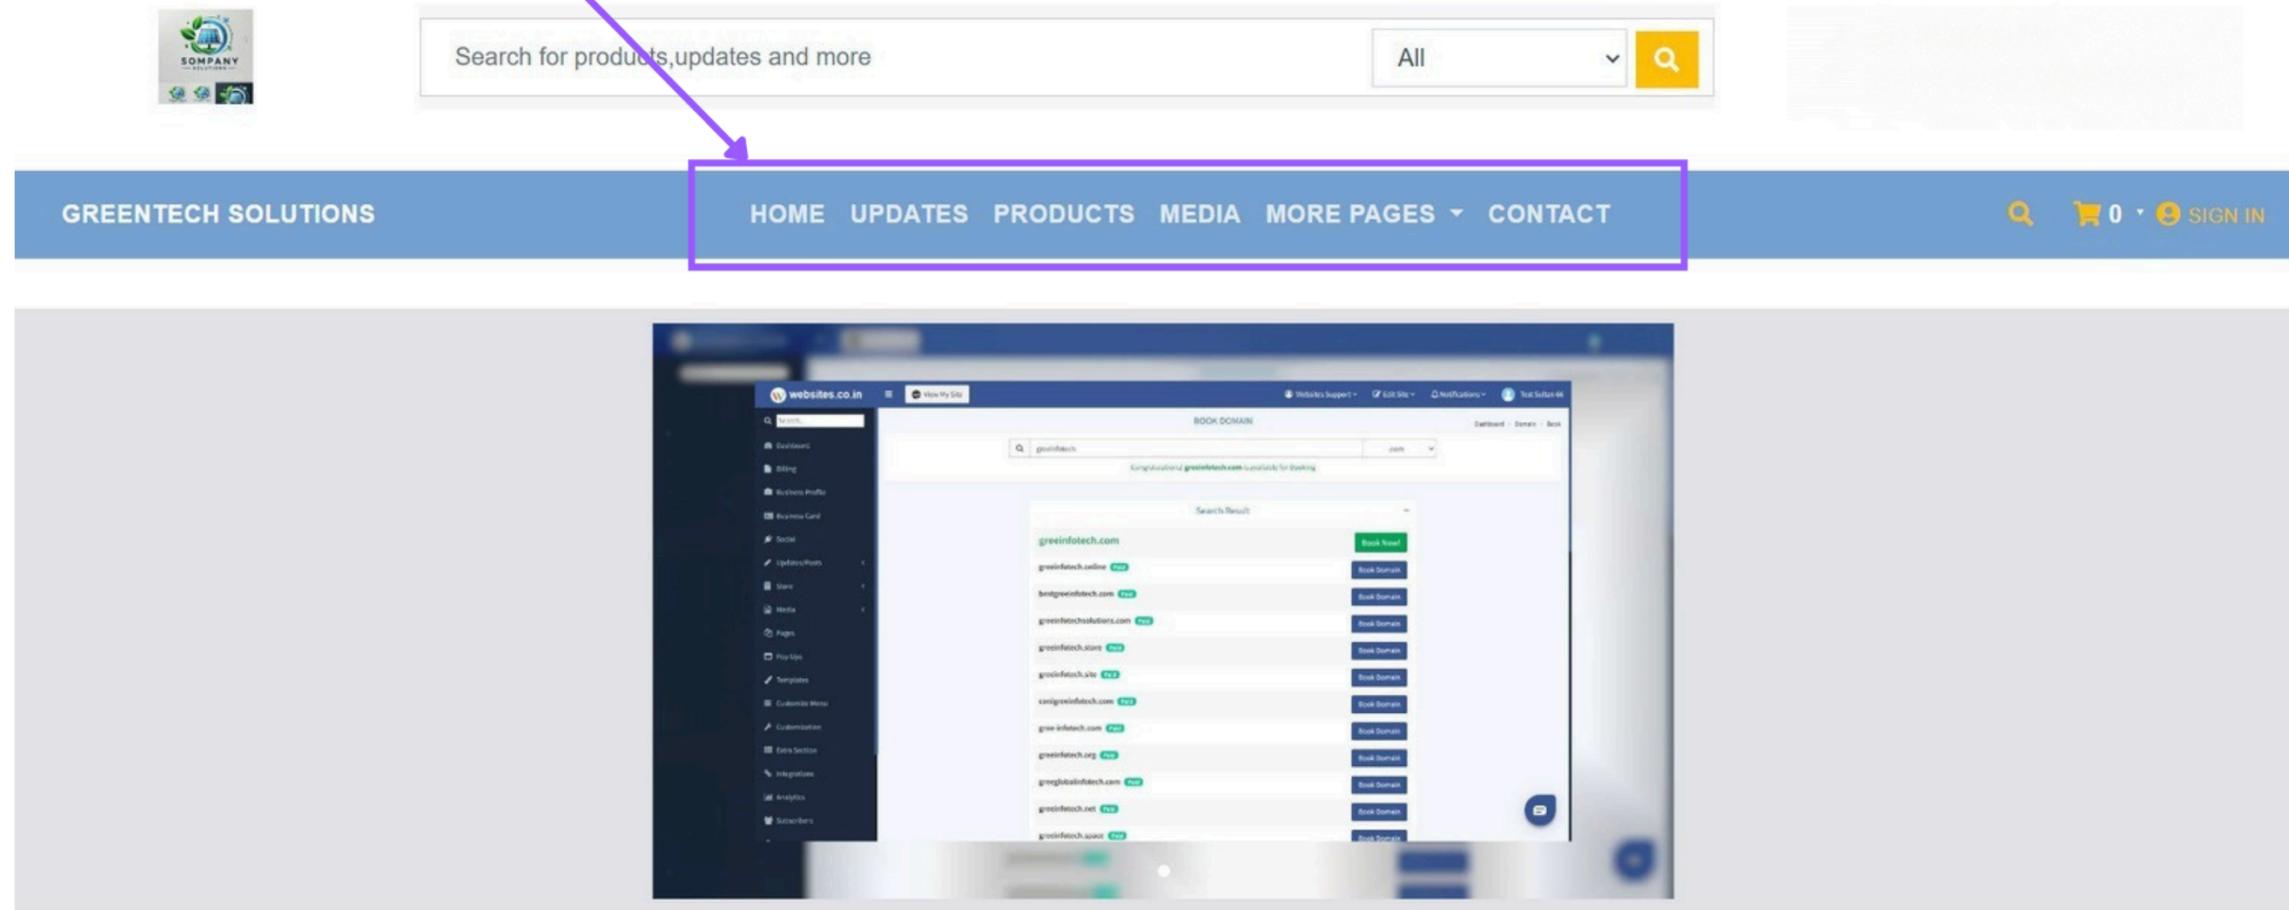

- Change Labels** (Title)
- you can change the labels for menu from here
- menu labels wont be saved from here. once changed the labels please click on save button to save your changes
- Input fields for menu items: Home, Updates, Products, Media, Contact, More Pages, Home, About Us, Services, Contact Us, Contact.
- Buttons: Save, Labels, Reset (in the background), Close, Change Labels.

The background dashboard shows a sidebar with various menu items like Dashboard, Buy Subscription, Business Profile, Business Card, Social, Updates/Posts, Store, Media, Pages, Pop Ups, Templates, Customize Menu, Customization, Extra Section, Integrations, Analytics, Subscribers, and Enquiries. The main content area has an 'Instruction' section and a 'Defaults' section with 'Updates', 'Products', and 'Media' options.

## EXTRA SECTION

The new section will appear like this on your webpage.

### OUR TEAM

At Green Infotech, our strength lies in our passionate team of professionals dedicated to driving innovation and sustainability in the solar industry.

#### Priya Nair

Head of Operations

Oversees the manufacturing process, supply chain, and daily operations to ensure timely production and quality control. Priya brings structure, precision, and leadership to our factory floor.

#### Ankit Sharma

Sales & Business Development Manager

Focuses on expanding Green Infotech's reach by building strong client relationships and identifying new business opportunities in residential, commercial, and industrial markets.

#### Dr. Neha Kulkarni

Head of Research & Development

Drives innovation through R&D initiatives, working on enhancing solar panel efficiency, durability, and sustainability. She's the mind behind our most advanced tech.

#### Vishal Patil

Customer Support Lead

Manages client queries, post-installation support, and ensures customer satisfaction. Vishal is the friendly voice that guides customers throughout their solar journey.

# INTEGRATION

Integration connects tools to work together, like adding Messenger to chat on your website.

"Click Integration and paste your "ID" into the respective text box."

The screenshot shows the 'Integrations' section of a website management interface. A dark sidebar on the left contains a menu with 'Integrations' highlighted. The main area is a grid of 12 integration cards. Each card has a title, a brief description, a text input field for an ID or URL, an 'Enable' checkbox, and a 'Save' button. A purple arrow points from the text above to the 'Google Analytics ID' input field.

- Tawk**: Monitor and chat with the visitors on your website, mobile app or from a free customizable page. Tawk ID: Ex. 123RTFWEB54545.  Enable. Save Tawk.
- Google Analytics**: Google Analytics is a web analytics service offered by Google that tracks and reports website traffic, currently as a platform inside the Google Marketing Platform brand. Google Analytics ID: Ex. 123RTFWEB54545.  Enable. Save Google Analytics.
- Google AdSense**: Google AdSense Auto Ads helps you with earning from your website with smart ads placement. We will create and host the required ads.txt file at yourwebsite.com/ads.txt. Note: It may take up to 24hours for the ads.txt file to be created and active on your website. Ex. ca-pub-9893140156928974.  Enable. Save Google AdSense.
- Google Translate**: Google Translate is a free multilingual machine translation service developed by Google, to translate text. It offers a website interface, mobile apps for Android and iOS, and an API that helps developers build browser extensions and software applications.  Enable. Save Google Translate.
- Google Tag Manager**: Google Tag Manager is a tag management system created by Google to manage JavaScript and HTML tags used for tracking and analytics on websites. Google Tag Manager ID: Ex. 123RTFWEB54545.  Enable. Save Google Tag Manager.
- Facebook Pixel**: The Facebook pixel is a snippet of JavaScript code that allows you to track visitor activity on your website. It works by loading a small library of functions which you can use whenever a site visitor takes an action (called an event) that you want to track (called a conversion). Facebook Pixel ID: Ex. 123RTFWEB54545.  Enable. Save Facebook Pixel.
- Hotjar**: See how visitors are really using your website, collect user feedback and turn more visitors into customers. Hotjar ID: Ex. 1234567.  Enable. Save Hotjar.
- Facebook Messenger Chat**: Let your users connect to you via Facebook Messenger Chat. Facebook Page ID: Ex. 1234567890123456.  Enable. Save Facebook Messenger Chat.
- Whatsapp Business**: WhatsApp can help you provide customer support and deliver important notifications to your customers. Whatsapp Business Phone Number: Ex. +911234567890.  Enable. Save Whatsapp Business.
- Google Maps**: Google Maps is a web mapping service developed by Google. It offers satellite imagery, aerial photography, street maps, 360° panoramic views of streets (Street View), real-time traffic conditions, and route planning for traveling by foot, car, bicycle and air (in beta), or public transportation.  Enable. Save Google Maps.
- Facebook Page**: Show and promote any public Facebook Page on your website. Just like on Facebook, your visitors can like and share the Page without leaving your site. Facebook Page URL: https://facebook.com/websitesindia.  Enable. Save Facebook Page.

## B. GOOGLE ANALYTICS

1. Go to Google Analytics and sign in with your Google account.
2. Click on Admin in the left menu bar.

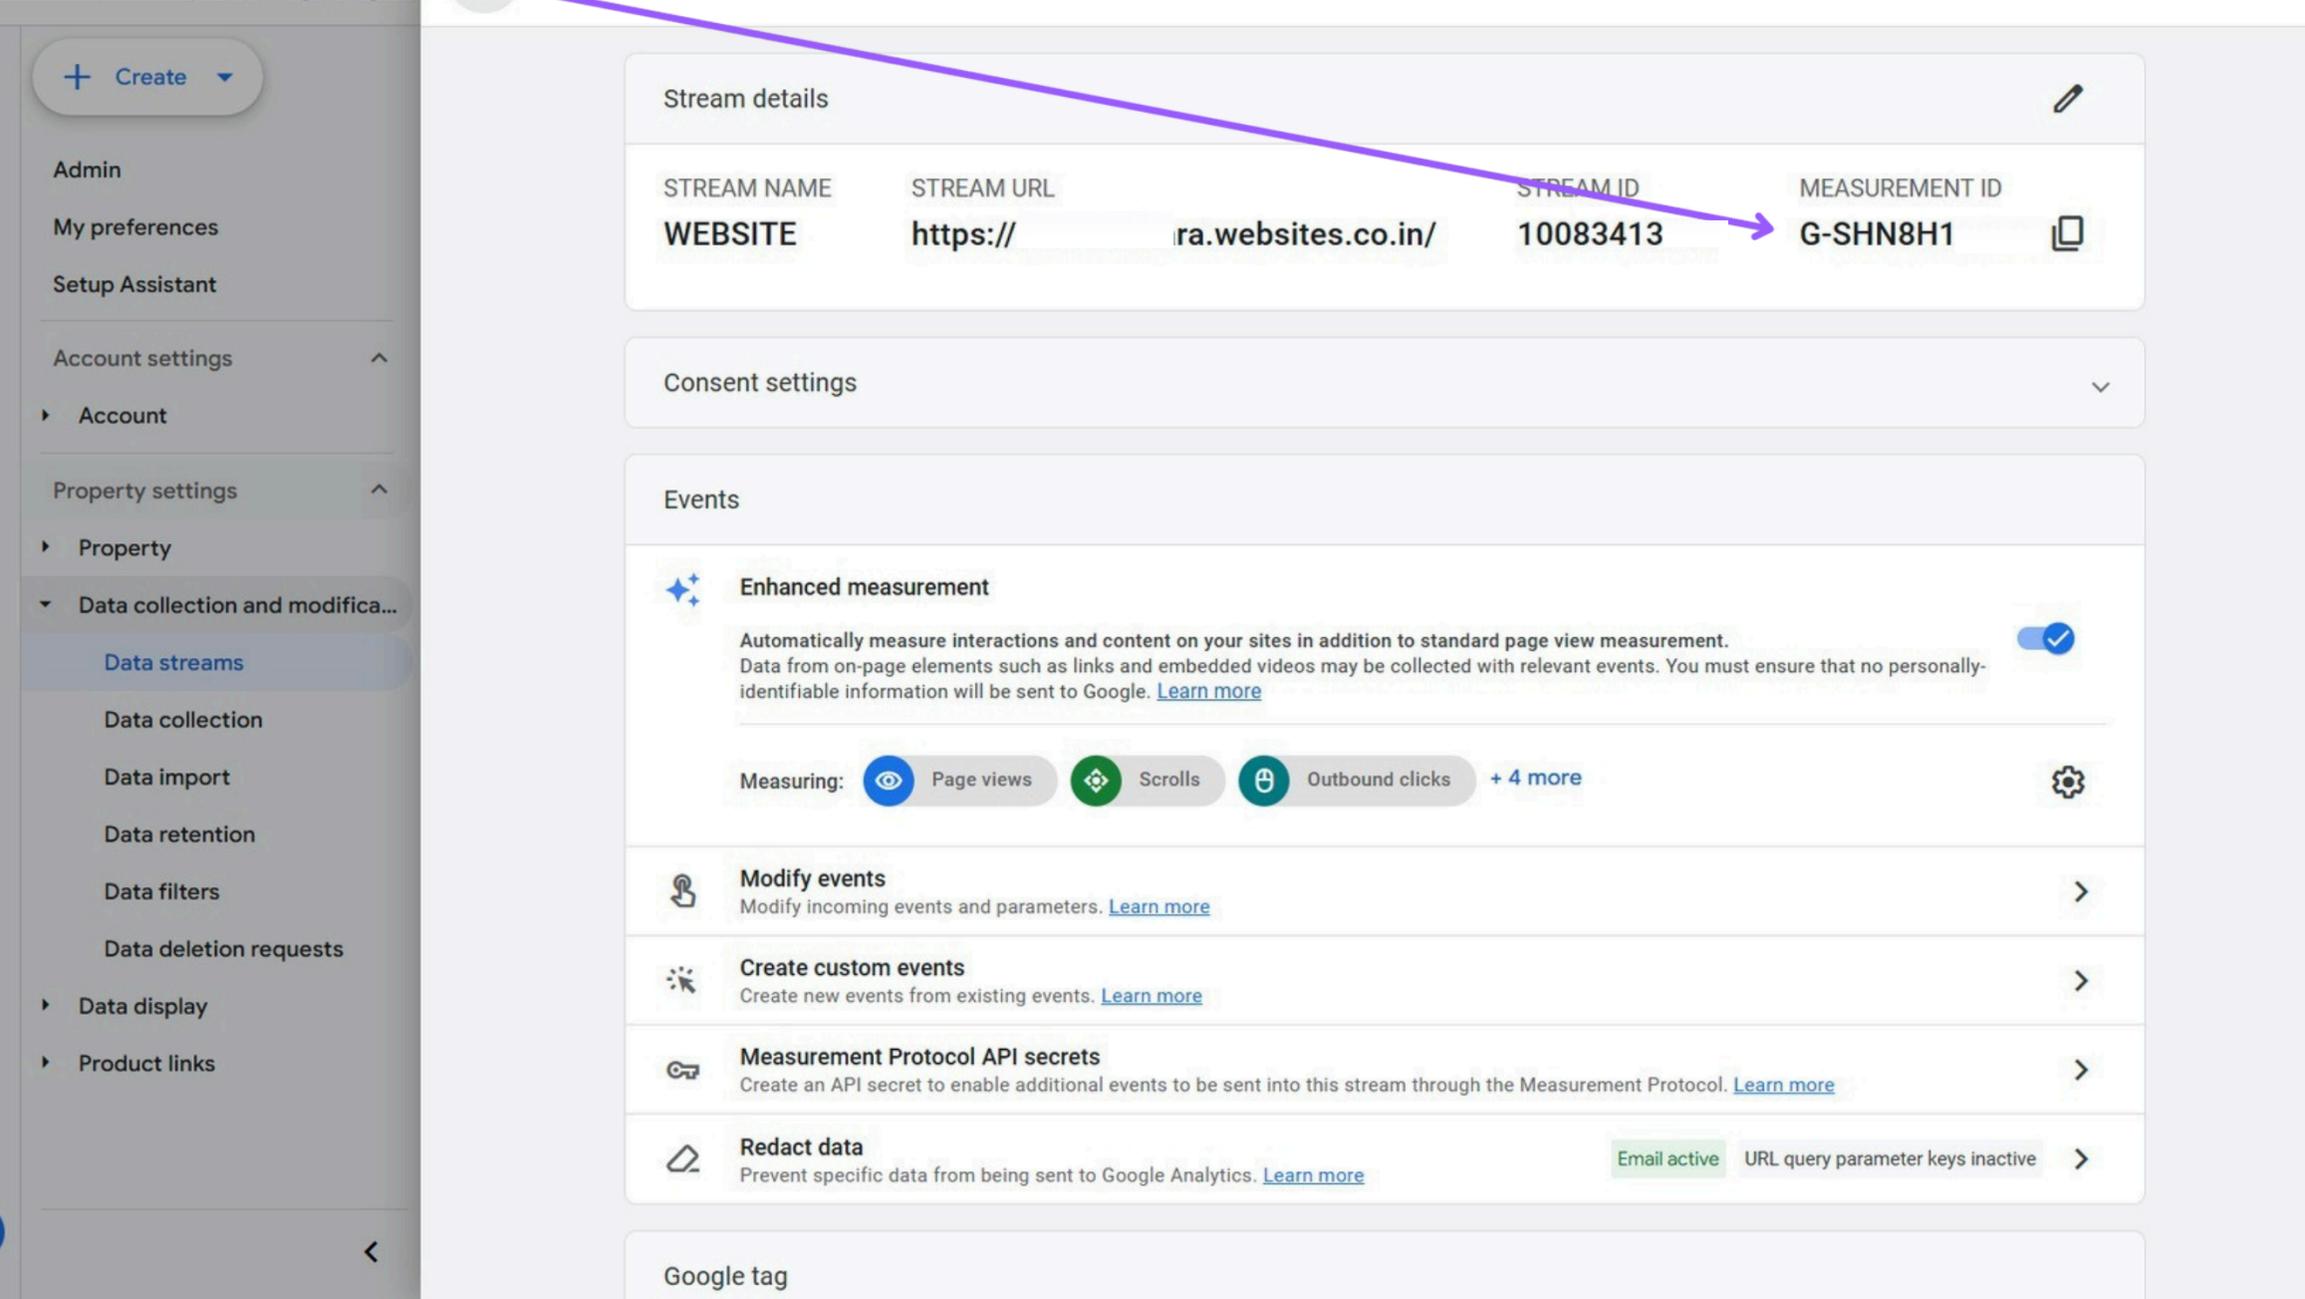

The screenshot shows the Google Analytics Admin interface. The left sidebar contains the following menu items: Home, Reports, Explore, Advertising, and Admin. The 'Admin' item is highlighted with a purple arrow. The main content area displays a dashboard with a header 'received from your website', a tracking ID 'G-SHN8H1', and a 'Getting instructions' button. Below this are two summary cards: 'Users' (Event count, New users, Key events) and 'ACTIVE USERS IN LAST 30 MINUTES' (Active users per minute). The 'Active users' card shows 'No data available'.

### 3. Navigate to Data Streams under Data Collection and Modification

The screenshot displays the Google Analytics interface for managing data streams. On the left, a sidebar menu is visible with the following items: Admin, My preferences, Setup Assistant, Account settings (with an expand/collapse arrow), Account, Property settings (with an expand/collapse arrow), Property, Data collection and modification (expanded), Data streams (highlighted), Data collection, Data import, Data retention, Data filters, Data deletion requests, Data display, and Product links. The main content area is titled 'Data streams' and features a '+ Create' button at the top left. Below the title, there are tabs for 'All', 'iOS', 'Android', and 'Web', and an 'Add stream' button on the right. A single data stream is listed with the following details: a globe icon, the type 'WEBSITE', the URL 'https://...websites.co.in/', the ID '10083413104', and the status 'No data received in past 48 hours.' with a right-pointing arrow. A purple arrow originates from the 'Data streams' menu item in the sidebar and points to the selected data stream entry. Another purple arrow points from the text '4. Select your website from the list.' to the same entry.

4. Select your website from the list.

### 5. Copy the Measurement ID.

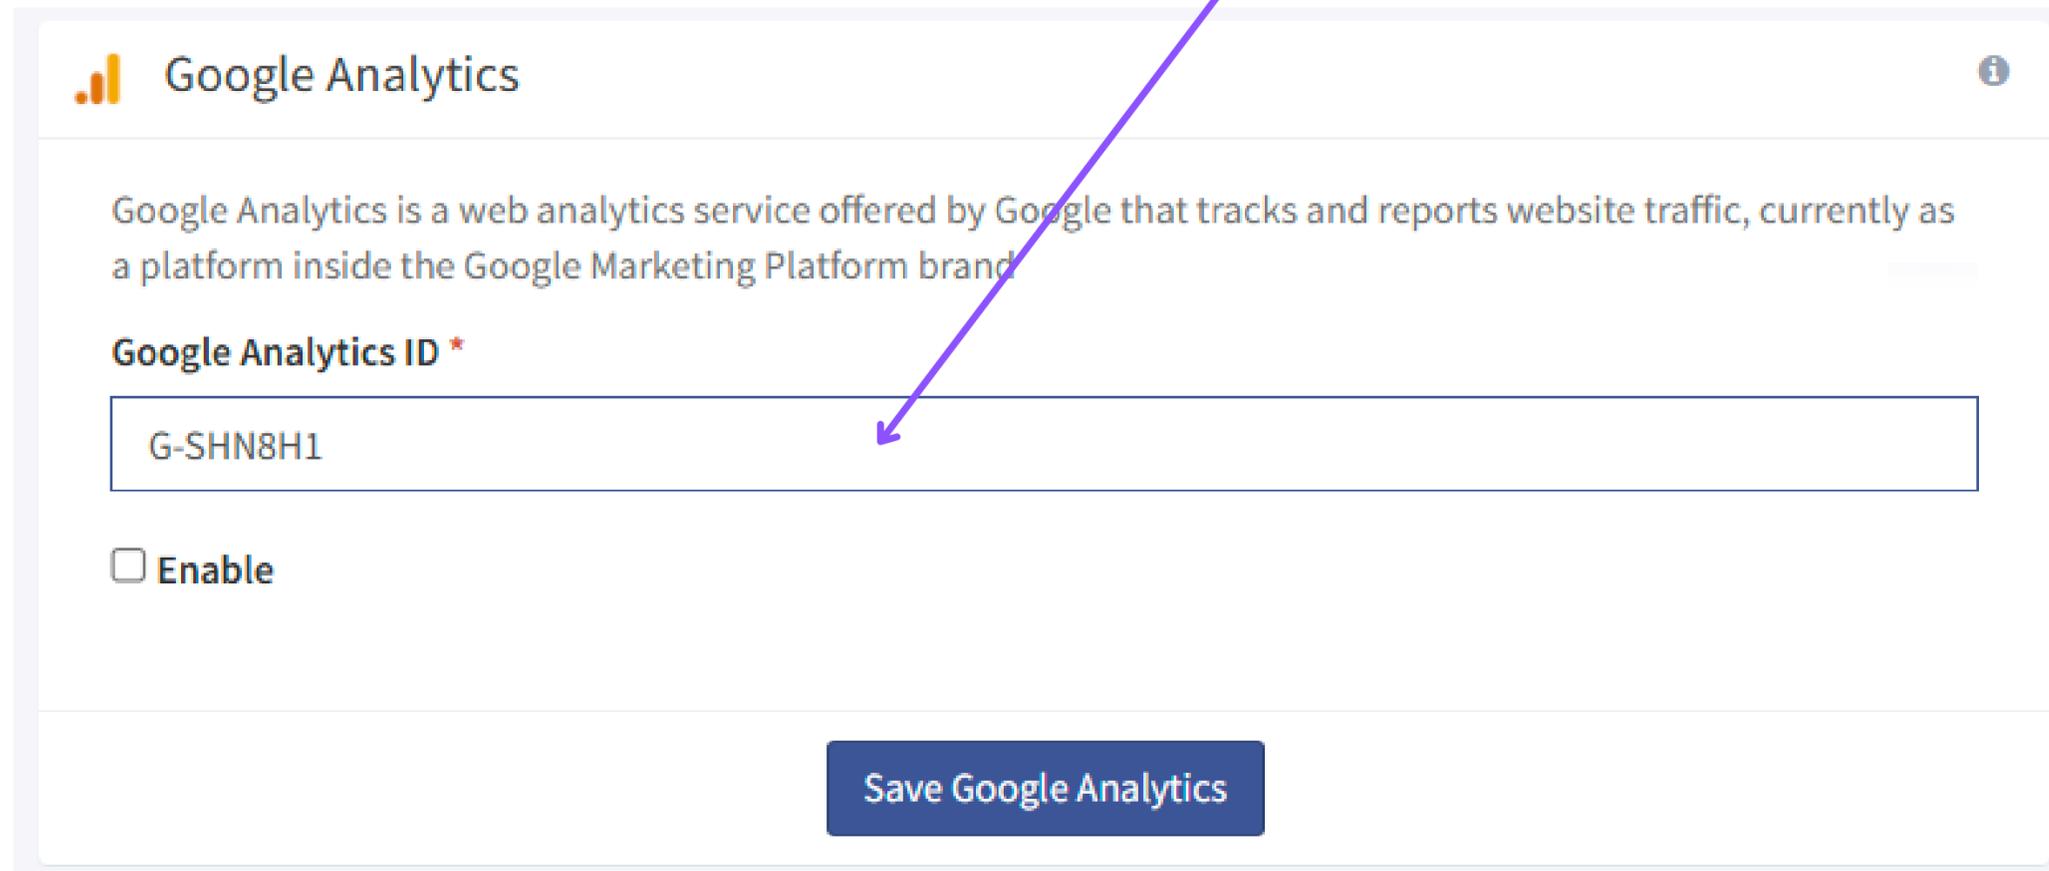

The screenshot displays the Google Analytics interface for a website stream. The left sidebar shows navigation options, with 'Data collection and modifica...' expanded to show 'Data streams'. The main content area is titled 'Stream details' and contains a table with the following information:

STREAM NAME	STREAM URL	STREAM ID	MEASUREMENT ID
WEBSITE	https://ra.websites.co.in/	10083413	G-SHN8H1

Below the table, there are sections for 'Consent settings', 'Events', and 'Google tag'. The 'Events' section includes 'Enhanced measurement' (which is turned on), 'Modify events', 'Create custom events', 'Measurement Protocol API secrets', and 'Redact data'.

6. Paste this code in Google Analytics integration feild

Measure the actions that people take after interacting with your brand.
- Optimise ads to drive real-world outcomes**  
Identify valuable customers and show ads to people who are most likely to convert.

Connect Data

# INTEGRATION

## D. META PIXEL

4. Click on Web, then click Next.

### Connect a new data source

Share data on how customers interact with your business. This can help optimise ad delivery and performance.

- Web**  
Connect your website to share activity that occurs online, including view content, add to cart and purchase events.
- App**  
Connect your app to share activity that occurs in your app, including installs and purchases.
- Offline**  
Connect activity that occurs offline, including phone calls or in-store purchases.
- CRM**  
Connect your CRM to deliver your lead generation ads to people who are most likely to convert.
- Messaging**  
Connect valuable data from business chats happening on WhatsApp, Messenger and Instagram.

5. Name your database and click Create.

### Create a new dataset

This helps you keep track of activity your business cares about, so you can better target audiences and help improve ad performance.

**Name**

  
 Request a test drive of the Conversions API Gateway with a **free 90-day demo.** **i**  
Advertisers who used the Conversions API saw a **13% lower cost per result.** **i**

To comply with our policies and help protect your users' privacy, don't share data that includes or is based on, directly or otherwise, health information, financial information, consumer report information or other categories of sensitive information when integrating the Meta Business Tools. Visit the [Help Centre](#) to learn more about prohibited information.

By continuing, you agree to the [Meta Business Tools Terms](#).

# INTEGRATION

## D. META PIXEL

6. Go to Connect Manually.

7. Select "Meta Pixel Only".

Choose how to connect your website

Connect with a partner **Connect manually**

**Meta pixel and Conversions API** Recommended

Use the Conversions API combined with a pixel to send web activity and customer actions from both your server and website. The Conversions API sends data directly through an API connection, which helps improve targeting and optimisation for deep-funnel events. Advertisers with a pixel who set up the Conversions API saw 13% CPA (cost per action) improvement on average. [Learn more](#)

**Meta pixel only**

Only use a pixel to send web activity. Loading errors, connectivity issues and ad blockers in browsers may sometimes prevent a pixel from sharing data effectively. For a more reliable connection, we recommend using the Conversions API and Meta pixel setup, which helps you see more accurate conversion data and lower your cost per result.

Advertisers who used the Conversions API alongside the Meta pixel for their campaigns saw a 13% decrease in cost per result on average.

Not sure which option is right for you? [Get guidance](#)

Close Next

8. Copy the provided code To Notepad

**Install base code**

The pixel code is a snippet of JavaScript that's added to the header section of your website. The pixel has two parts: the base code and the event tags.

**1 Copy base code**

Copy the base code below.

```
<!-- Meta Pixel Code -->
<script>
!function(f,b,e,v,n,t,s)
{if(!f.fbq)return;n=f.fbq=function(){n.callMethod?
n.callMethod().apply(n.arguments).push(arguments):};
```

**Copy code**

**2 Paste base code to website**

Paste the pixel code into the bottom of the header section just above the </head> tag. Install the base code on every page of your website. [Learn more](#)

Cancel Give feedback Continue

9. Paste the link into the Facebook Pixel Integration field.

9. Now copy the selected code

```
NEWS.txt
File Edit View
<!-- Meta Pixel Code -->
<script>
!function(f,b,e,v,n,t,s)
{if(f.fbq)return;n=f.fbq=function(){n.callMethod?
n.callMethod.apply(n,arguments):n.queue.push(arguments)};
if(!f._fbq)f._fbq=n;n.push=n;n.loaded=!0;n.version='2.0';
n.queue=[];t=b.createElement(e);t.async=!0;
t.src=v;s=b.getElementsByTagName(e)[0],
s.parentNode.insertBefore(t,s)}(window, document,'script',
'https://connect.facebook.net/en_US/fbevents.js');
fbq('init', '381724681527');
fbq('track', 'PageView');
</script>
<noscript></noscript>
<!-- End Meta Pixel Code -->
```

10. Paste this code in Tawk integration feild

 Facebook Pixel 

The Facebook pixel is a snippet of JavaScript code that allows you to track visitor activity on your website. It works by loading a small library of functions which you can use whenever a site visitor takes an action (called an event) that you want to track (called a conversion).

# INTEGRATION

## G. FACEBOOK MESSENGER

1. Sign in to Meta Business Suite.

2. Click on Inbox.

3. Go to Settings.

The screenshot displays the Facebook Business Inbox interface. At the top right, there is a navigation bar with buttons for 'Automations', a speaker icon, a bar chart icon, 'Available', and a gear icon for 'Settings'. A red arrow points from the text '3. Go to Settings.' to the 'Settings' gear icon. Below the navigation bar, the main area is divided into two columns. The left column shows a 'No messages' status with a 'Create messaging ad' button. The right column shows a 'You don't have any messages at the moment.' status with a 'Connect Instagram' button. The left sidebar contains navigation options for 'All messages', 'Messenger', 'Instagram', and 'Comments'.

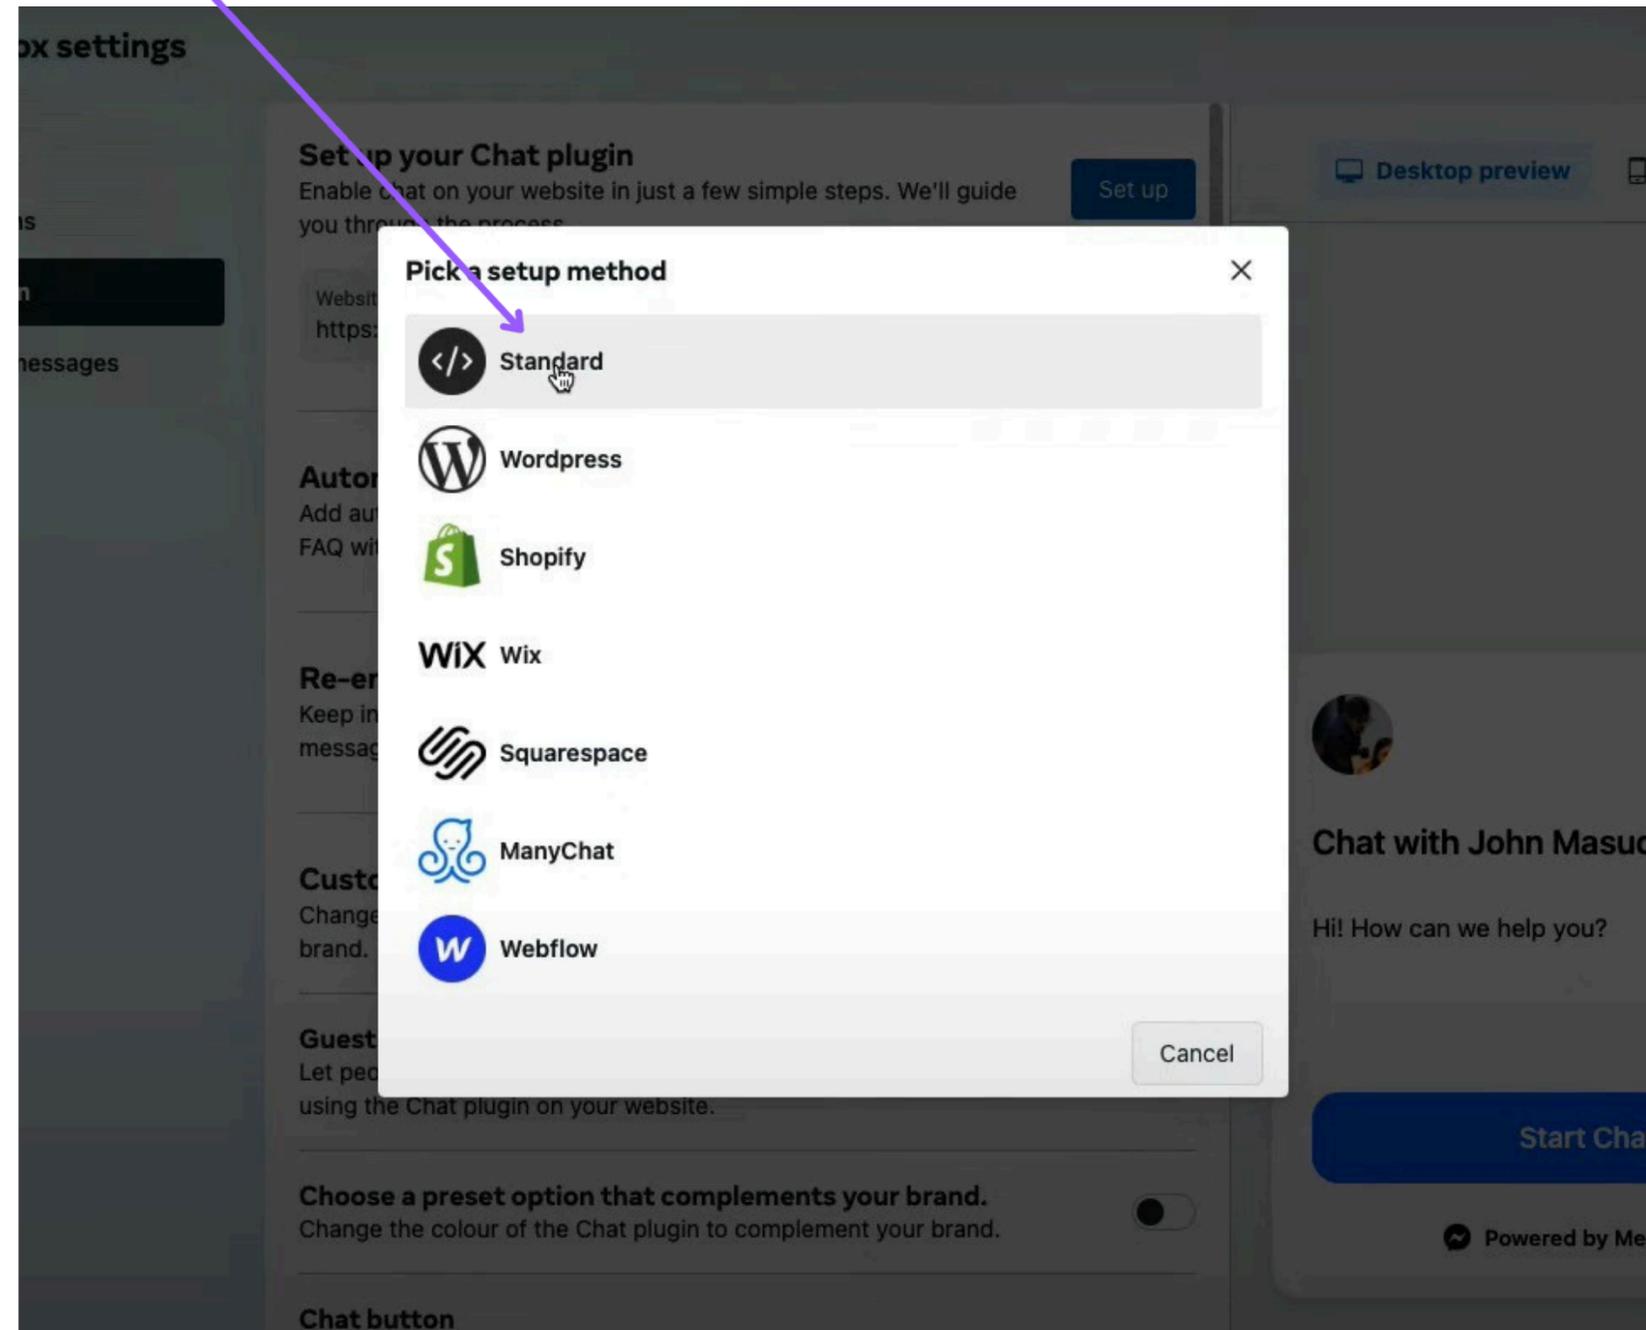

4. Click on Chat Plugin.

5. Enter your website URL.

6. Click Setup.

The screenshot displays the Facebook Messenger 'Inbox > Inbox settings' interface. On the left sidebar, the 'Chat plugin' option is highlighted with a purple arrow. The main content area is divided into three sections: 'Set up your Chat plugin', 'Automations', and 'Re-engage visitors'. The 'Set up your Chat plugin' section includes a 'Website domain' input field containing 'https://www.health-revolution.org/about-john.html', with a 'Set up' button to its right. A purple arrow points to this 'Set up' button. Below this, there are sections for 'Automations' and 'Re-engage visitors', each with a dropdown arrow. At the bottom of the main content area, there is a 'Customise your Chat plugin' section. On the right side of the interface, there are 'Desktop preview' and 'Mobile preview' buttons. A purple arrow points to the 'Desktop preview' button. Below these buttons is a preview of the chat widget, which includes a profile picture, the name 'John Masud Parvez', a greeting 'Hi! How can we help you?', and a blue 'Start Chat' button. At the bottom of the preview, it says 'Powered by Messenger'.

7. Select "Standard" under Setup Method.
